

My Reading Diary

Don't forget to keep reading with me at home. Please write a comment in my reading diary to let my teachers know that I am ready for a new book.

My library day is on a Friday.

Remember to put my library book in my book bag.

Please continue to help me learn all my keywords.

When I am confident reading them, encourage me to write them as single words and in sentences. **Write in my reading diary to let my teacher know when I am ready for a new set!**

Mathematics

Fruit and Veg Problem Solving!

- Segment an orange. How many pieces are there? What if we eat 3 pieces? How many will be left? Share segments equally between 2 or 3 people.
- Count how many carrots are on my plate. What if I had one more? Two more? How many if the amount was doubled?
- Talk about the different sizes of fruit - which apple is biggest/smallest? Which banana is the longest?
- Show me how to cut an apple in half. How many bits do I have now? What if I cut 2 apples in half? How many pieces would I have? Show me quarters.

TAKE PHOTOS OF ME DOING THESE THINGS & SEND THEM IN!

Ladybirds Home Learning & Reminders 'In the Garden...'

Understanding the World

Encourage me to try **new** fruits and vegetables. Talk about the shapes and patterns I can see on the skins and insides. Find out about where and how they are grown.

Go for a walk in the forest/park. Have a look for signs of new flowers growing. How many different plants/trees can you spot?

Topic Project (Optional)

Let's get planting...

Plant some flowers or vegetables with me at home. If I don't have a garden - a tray on the window sill will be fine!

Look carefully at the seeds...

What are they like?

How many do we think there might be?

Take photos of me planting.

Talk about what we will need to give our plant to help it to grow. Take photos as it grows. Help me to care for my plant. I could even keep a diary about my plant growing and changing.

We would love to share your learning in school. Please hand in by Friday 26th May.
